BRUSSELS, BIBLIOTHÈQUE SOLVAY, 12 January 2012, 16.00–19.30

THINKTANK[®]

On the occasion of the conclusion of the Polish Presidency of the Council of the European Union, as well as the end of Jerzy Buzek's term as President of the European Parliament, on 12 January 2012 – at the outset of a year of new challenges for the EU – THINKTANK is organising a debate on the subject of possible areas and strategies of action.

The crisis has revealed in a drastic way various internal tensions in the EU which would probably not have come to light in conditions of prosperity. Many issues which were previously never discussed openly in the Union are now spoken of. In this context, 2012 will be a crucial year. We have invited representatives of think-tanks, the media and the European Commission, as well as MEPs and various experts to take part.

The event would be conducted in English only.
Participation in the event is free of charge.
The number of seats is limited.
